

SACF 25[®] Semi-Automatic Capsule Filler

With the ability to produce up to 25,000 capsules an hour, this highly efficient semi-automatic filling mechanism ensures a top level of accuracy and can operate with a range of capsule sizes.

This semi-automatic capsule filling machine not only takes the drudge out of a laborious task, but just as importantly ensures a very high level of accuracy, thereby saving money, ensuring quality and promoting customer satisfaction at the same time.

Suitable for a wide range of applications, from pharmaceutical production to food supplements, vitamins and minerals, food technology, veterinary, and other special uses, the SACF 25[®] is a cost-effective way to achieve rapid, dependable and accurate production of large volumes of capsules.

Main Benefits of the SACF 25[®]

- Fast, accurate, and reliable
- Reduces unit cost of filling capsules
- Fills from 10,000-25,000 capsules per hour
- Can operate with capsule sizes 00-5
- Meets GMP requirements
- Low noise
- Corkscrew feeder mechanism to ensure accurate and consistent filling
- Safe and easy to operate
- Virtually no training needed
- Stainless steel construction for durability and hygiene
- Easy cleaning
- Easy maintenance

Specifications

Product	SACF 25 [®] semi-automatic capsule filler
Maximum output/hour	25,000
Compatible capsule sizes	00L / 00 / 0 / 1 / 2 / 3 / 4 / 5
Filling precision	±3%
Decibels (dB)	≤60
Weight	330 kg / 727.5 lbs
Power (USA)	240 V, 3 phase, 2.2 kW, 60 Hz
Power (UK)	440 V, 3 phase, 2.2 kW, 50 Hz
Vacuum pump	40 m ³ /h
Capacity of air compressor	0.1 m ³ /min
Length	1200 mm / 47.2 in
Width	700 mm / 27.5 in
Height	1600 mm / 63 in
Floor loading	3.62 kN/m ²
